

# Tuscany Accommodations

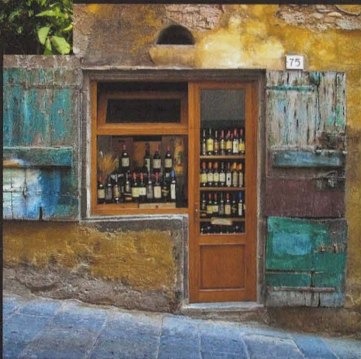

Immerse yourself in the natural beauty of the Chianti region of Tuscany as we spend our art days at the beautiful estate San Leo.

After we've finished our art for the day, we will explore the countryside visiting wineries, restaurants and shops in charming Tuscan villages.

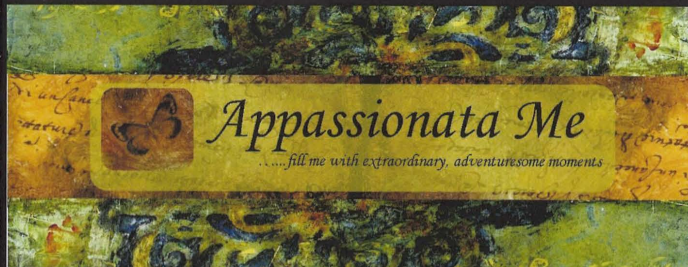

Our hostess, Patrizia Belli, will pamper us with homemade Italian meals every day.

Enjoy our own private cooking class making pasta or pizza, using local ingredients and olive oil produced right on the estate.

*Italy is waiting for you...exactly how you dreamed it would be.*

## COME CREATE WITH US IN BEAUTIFUL TUSCANY...

and experience a trip you will never forget! Our workshops are specifically designed for people who just want to have fun with art. At Appassionata Me, we drink wine, laugh, crank up the music and mess around with various art techniques just because it's fun. The end result is secondary. We are on a gorgeous estate, surrounded by the beauty of Italy, having the time of our lives with a group of other adventurous women. It's all about the joy of creating!

Appassionata Me is unique in the international art workshop world. We believe that your Italian experience shouldn't stop when the workshop is over. You've come all this way. There are amazing things around every corner! How can we NOT show them to you?

That's why our tour is extended beyond the workshop days. We can't wait to show you all of our favorite things in Florence, Siena and Tuscany.

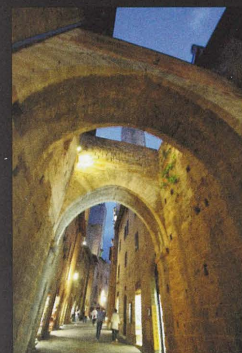

## SEE THE TUSCANY YOU'VE BEEN DREAMING OF...

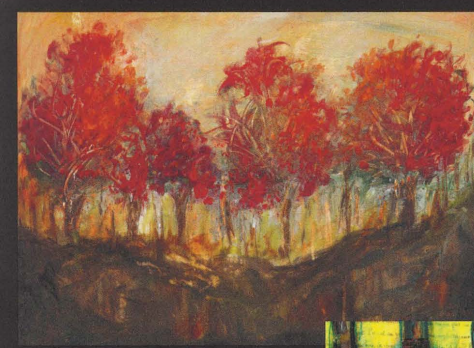

Begin the adventure with several days exploring the treasures of the Renaissance in Florence and Siena. Visit magnificent churches, museums and other historic sights as well as spend many relaxing hours enjoying the fabulous food, wine and shopping that Italy has to offer.

This is a great opportunity to experience the joys of travel without worrying about the details. Accommodations, private drivers, museum passes etc., will be taken care of for you.

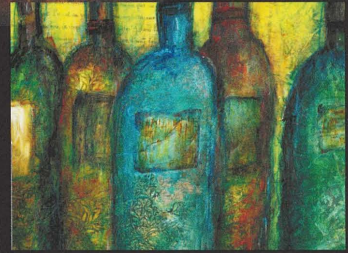

Our travel philosophy is that the greatest moments of travel are not just the ones spent taking pictures of monuments or churches but rather those spent in lingering conversation with good friends over a fantastic meal or simply wandering the streets of an amazing city.

## Finger Painting

Explore several fun and easy art techniques on a beautiful estate in the Chianti region of Tuscany. These simple techniques produce impressive results for both beginner and experienced artists alike. Absolutely no previous experience needed. You will amaze yourself with what you can create.

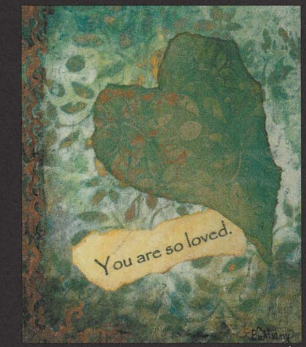

## Decoupage Reinvented

## Texture Painting

## Mixed Media Collage

These magical days will be full of rediscovering the freedom to create as you did when you were a child ..... freely, and without inhibition.
